ASSEMBLY BILL

No. 1397

Introduced by Assembly Member Soto

February 23, 2007

An act to amend ~~Sections 1417.2 and 1417.3 of, and to add Section 1417.6 to, Section 1417.2 of~~ the Health and Safety Code, relating to long-term health care facilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 1397, as amended, Soto. Long-term health care facilities.

Existing law provides for the licensure of long-term health care facilities by the State Department of Health Services. Effective July 1, 2007, these duties will be transferred to the State Department of Public Health. Under existing law, the Long-Term Care, Health, Safety, and Security Act of 1973, the department may assess penalties for violation of prescribed requirements. Moneys collected as a result of the penalties imposed pursuant to these provisions are required to be deposited into the Health Facilities Citation Penalties Account, which may be used, upon appropriation by the Legislature, for the protection of health or property of residents of long-term health care facilities, including reimbursing residents for personal funds lost and costs associated with informational meetings.

~~This bill would also authorize the funds in the account to be used, upon appropriation, for the promotion of the quality of care and quality of life for residents, clients, and patients in these facilities, as specified. The bill would require the department to establish a long-term health care facility advisory group to advise the department on priorities for the use of these funds for projects for this purpose. The~~ *This* bill would

also require the department to post on its Internet Web site prescribed information about the funds in the account.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature hereby finds and declares all of
2 the following:

3 (a) Congress passed the Nursing Home Reform Act which
4 allowed the government to issue sanctions against nursing homes
5 that failed to comply with federal Medicare and Medicaid quality
6 of care requirements.

7 (b) Civil money penalties are one type of sanction established
8 by the federal government to encourage nursing homes to comply
9 with federal requirements and to prevent poor quality of care.

10 (c) The federal government contracts with state licensing and
11 certification to inspect nursing homes and to issue civil money
12 penalties for violations of federal conditions of participation.

13 (d) Moneys collected as a result of civil penalties imposed as a
14 result of violations of federal and state statutes are deposited into
15 a separate account which is established in the Special Deposit Fund
16 pursuant to Section 16370 of the Government Code.

17 (e) These civil money penalties offer an opportunity to make
18 the lives of nursing home residents better by providing additional
19 resources to the state to improve the quality of care and quality of
20 life for residents.

21 (f) In 2002, the federal Centers for Medicare and Medicaid
22 Services provided guidance to ensure that states use civil money
23 penalty funds in accordance with federal law while allowing
24 flexibility in the use of the funds.

25 (g) The written guidance to states allowed civil money penalty
26 funds to be used to prevent continued noncompliance by nursing
27 facilities through educational or other means and to authorize the
28 use of the moneys for any project that directly benefits facility
29 residents.

30 SEC. 2. Section 1417.2 of the Health and Safety Code is
31 amended to read:
